Educational Training

2017/9 ~2021/6 Faculty of computer and information(Kafr El Shikh University) Software Engineering

Career Summary

➤ All my works were in Student Activities :

1. Attendance Tracking Management System :

Attendance Tracking Management System (ATMS) is a part of an HR System, that allows the Admin to track the attendance and leaving of the employees, tracks their availability during the day, and manages their profiles.

The leaving process is divided into two types of leaving:

- One that needs approval from the admin or the head of the department.
- One that is the ordinary leaving which does not need any approvals. **The Admin** has all privileges to edit the employees' data, and accept or reject their leaving requests. **The Head** of the Department is allowed to accept or reject his department ,employees' leaving requests ,**The Employee** checks in, checks out, and requests leaving.

Development and Database of this project,using Php native and UI languages.

Languages

- ✓ Arabic : Mother Language
- ✓ English : Very Good Writing , Good Speaking

Personal Information

- ✓ Birth day : 16/8/1999
- ✓ Nationality : Egyptian
- ✓ Address : EL Salam, Alex ,Egypt .
- ✓ LinkedIn :
www.linkedin.com/in/ahmed-esmail-46bb75173

Skills

- Coding languages
 1. JavaScript ,
 2. HTML/CSS,
 3. PHP
 4. Ajax
- Frameworks/Systems
 1. JQuery
 2. Bootstrap
 3. Laravel

Programming Experience

- Html/5 : Excellent
- Css/3/4 :Excellent
- JavaScript :Good
- PHP : Very Good
